National Weather Service

Skywarn - Weather Spotter Class

Learn how to report weather phenomena and more importantly, learn what kind of weather to report and when to report it.

Thursday

April 11, 2013

7:00 pm – 9:00 pm

American Red Cross

Great Lakes Bay Chapter

228 Washington Ave.

Bay City, MI 48708

Tornados, flash floods, hail, windstorms and lightning (thunderstorms) are all natural occurrences over which we have no control. With your help, we can provide the precious time needed to inform the community of severe weather.

Anyone interested in learning more about becoming a **Skywarn - Severe Weather Spotter**, and how to report severe weather should attend this class. If you are interested in attending or for more information contact **Ryan Manz** of the Bay County Emergency Management Division and ask to register for the class. The Registration deadline is: April 5th, 2013.

For Registration Information:

Phone: (989) 895-4112
E mail: manzr@baycounty.net
Fax: (989) 892-3744
Website: <http://www.baycounty-mi.gov/ESHS>

First Responders, Schools, Daycares, Nursing Homes and Senior Centers are all **recommended** to have a representative attend the Weather Spotter training.

Co-sponsored by: The American Red Cross and Bay County Emergency Management
